

Succeed Anywhere

October 23, 2006

Mr. Christopher Sullivan, President
Bilt-Rite Construction Inc.
150 Shirley Street
Boston, MA 02119

Dear Chris:

Now that we have welcomed 382 students to our new school building this Fall, we wanted to write to let you know how much our students, teachers and other staff are enjoying their new home.

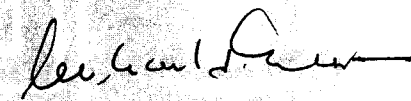

Thanks to Bilt-Rite Construction we have a new facility that works for all. Despite being a challenging renovation, combined with demolition and new construction conducted during a very difficult weather year, we now have a first class school campus and a building that is performing to our high expectations. For that we are grateful to you, your brother John, and your entire staff for their commitment to excellence in executing our project. In addition you have been attending to our calls and questions faithfully as we have learned the systems and the operation of the facility and dealt with a few warranty issues.

You have seen that we have improved the recreation area across Queen Street by repaving the basketball court and adding playground equipment and fencing. Our final goal is to add multipurpose arts and athletic center and that will complete our master plan for the site.

As Headmaster speaking for the students and staff, and with Mike representing the Board of Trustees, we simply say thank you.

Sincerely,

Kevin T. Andrews
Headmaster

Michael J. Owens
Chair, Real Estate Committee,
Board of Trustees
